COMPANY PROFILE

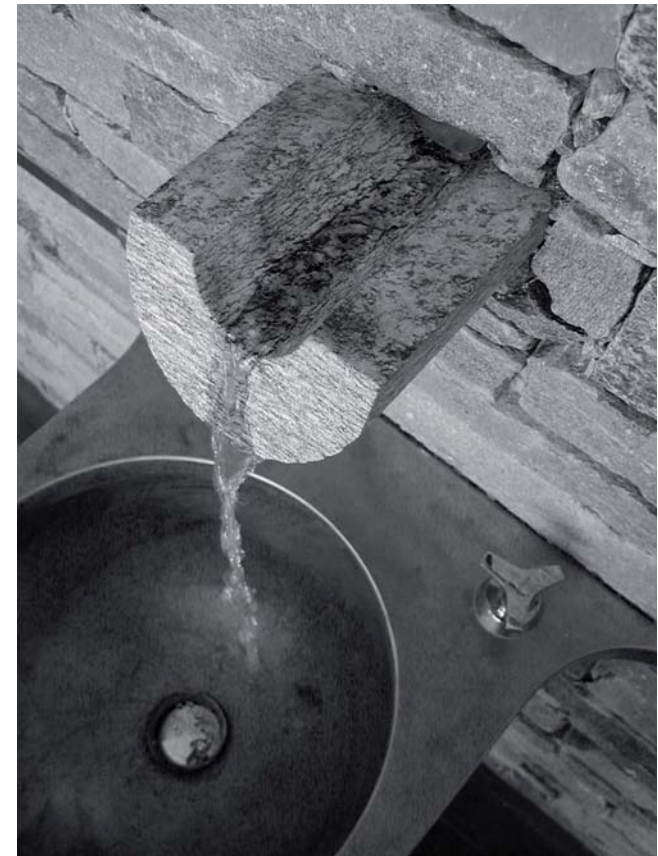

PHILOSOPHY

LISTEN, THINK, ACT

Three words to tell the story of a trademark, to describe the complexity of a path that leads to the creation of the product, the preparation of customised services and the final objective: customer satisfaction.

"Listen, think, act" is the formula which summarises the care and attention paid to the customers in interpreting their wishes, and working out solutions that satisfy their tastes and requirements. It is not by mere chance that Bellosta trademark today comprises over thirty collections of bathroom taps and fittings and accessories which can be combined in an infinite number of ways by technical variations and finishings.

The marked propensity to be flexible and propositional is also represented by an ideal graphic form composed of three meandering lines which pursue and intersect one another; the symbol brings to mind certain tribal representations and recalls the impetuous flow of a stream of water: that self same water of which, the Bellosta product is proud to be an elegant and efficient provider.
